

Accelera Service Overview

Empowering organisations to innovate and drive disruptive change, by becoming Cloud Native.

Built on over 25 years of experience in the industry, we help innovative leaders ride the wave of innovative change and disruption.

Through our strategy-led approach, we work with you to build lasting strategies, reinforced by Cloud Native best practice – putting you and your organisation in the best position to innovate and drive change.

Our Services

Asses and Consult

Our consultants are at the top of the game when it comes to bleeding-edge Cloud Native technology, DevSecOps and Security. Work with us to formulate the best strategy for your organisation.

Implement, Deliver and Enable

Armed with a blue-print and strategy, our local and experienced engineering team will get to work delivering your environment.

Continuous Operations

If you truly want to be in a position to embrace and drive innovative change, our Continuous Operations approach is designed to provide you with confidence and the expertise to stay ahead.

Why Accelera?

Edgy & Successful

Success doesn't come in boxes, so you won't get a box from us.

Innovative & Energetic

innovative thinking comes from loving what you do. We love this stuff.

Shift-left Security

Security & compliance fuels innovation. Best-practice baked into every solution.

Pragmatic & Passionate

We love to dream but we're also practical in our approach.

Working with Accelera we were able to see results from day one.

Leveraging Accelera's expertise we were able to change mindsets and bring the best out of everyone. We look forward to working with Accelera on many more projects ahead.
